

SpeedyTel

Critical Information Summary

Information About the Service

The service

SpeedyTel delivers high-speed broadband services to select Properties via wireless or wired technologies on a month-by-month contract.

The Service will only work in a Property which has been enabled for use with SpeedyTel internet.

Availability

SpeedyTel only operates in specific Buildings. Installation outside of enabled Buildings is not possible.

IP Addressing Allocation

Unestablished public access to devices is not possible, such as is required to run a server.

SpeedyTel allocates dynamic CGNAT IP Addressing in the Shared Address space of 100.64.0.0/10 as per IETF RFC 6598.

Important Conditions

- To use our network you need to be located within an enabled building
- Outside of our enabled buildings we are unable to provide network or internet services

Use of Network

- Commercial Use, Business Use, Resale, on-selling, bundling, sharing or external access (including free Wi-Fi stations under accounts) is not permitted.
- Devices connected to our network will not be permitted to directly transmit data between each other except via the public Internet.

Actual throughput speeds may be slower and could vary due to various factors. Testing of speed can be made at any time by visiting <https://fast.com>.

Information About Pricing

Minimum Monthly Charge

SpeedyTel plans are for a monthly period paid in advance. All plans will automatically renew unless cancelled via the SpeedyTel Portal or by contacting the SpeedyTel helpdesk before the time of renewal. Not all plans are available at all locations.

NOTE: At some locations a connection fee from the carrier will be passed through at cost. A once-off VostroNet™ or NBNCo™ New Development Charge may apply if your premises is identified by NBNCo™ or VostroNet™ as being within the site boundary of a new development. Any costs associated with carrier connection fees will be stated at time of sign up.
